Job Title: **IT Specialist**	
Grade: CS-2201-13	Salary: $90,268-$116,343

Requirements: Must successfully pass a criminal background and consumer check as a condition of employment.

Qualifications: Individuals must possess IT-related education and/or experience as defined in the Information Technology qualification standard (2210 series). In addition to meeting basic requirements, at least one (1) year of specialized experience equivalent to at least the grade 12 level is required.

Job Description:

The position is established to serve as an IT Specialist within the IT Unit of the DCAS Project at the Department of Health Care Finance, the District's state Medicaid agency. DC Access System is the District's state-of-the-art health and human services solution, which once fully integrated will serve as the platform to provide the District with a modern integrated eligibility system for Medicaid, Supplemental Assistance Nutrition Program (SNAP), Temporary Assistance to Needy Families (TANF) and other programs with case management capabilities. The incumbent is primarily responsible for documenting, analyzing, developing, interpreting and identifying reporting requirements utilizing data provided via the DCAS customized Cúram Software platform. The incumbent will run report queries, assist in designing reporting layouts, data structures and the subsequent Extract Transform Load (ETL) required to populate data structures. The incumbent will have a strong understanding of SQL.
