

COVID-19 vaccination plan: Our commitment to you and your employees

The health and wellness of your employee population is our top priority. We are committed to helping end the pandemic and keeping members up to date on the latest COVID-19 vaccine information.

3 key ways we're helping support you and your employees

1 Encouragement to get the COVID-19 vaccine

Vaccines are critical to slowing the spread of COVID-19 and key to helping protect your employees and their families. Motivating members to take action means sharing with them what to know and where to go.

2 What to know about COVID-19 vaccines

Pulled together from trusted sources, reliable and up-to-date vaccine information on cost, access and more is available to members at [UHC.com](https://www.uhc.com) and [myuhc.com](https://www.myuhc.com)®. We're aware that some populations may be more hesitant around vaccines, so we're creating additional content to address and ease their concerns.

3 Where to go for COVID-19 vaccines

While the nation begins vaccinating those at highest risk through local distribution, we put together direct links to [64 state and local health departments](#) so members can access specific guidelines.

Vaccine vision and actions, as distribution expands

As vaccines become more available, we'll inform your employees about who is eligible for the vaccine and where they may be able to get it, plus help ensure they get their second vaccine dose when required.

Pre-vaccination

Inform on vaccines on **UHC.com** and **myuhc.com**

Vaccination

Notify eligible members to get the vaccine, helping direct to vaccination providers

Second dose

Remind to get second dose when required, supporting vaccination adherence

Post-vaccination

Celebrate the member's vaccination and provide vaccination confirmation through **myuhc.com**

Care goals for the times ahead

Working to address employee health needs, together

Gathering insights from your population health management needs is critical to addressing vaccine hesitancy. We'll reach out to hesitant members with compassionate messaging designed to promote vaccine safety, calm concerns and motivate action.

Prioritizing physical and mental health

Employees can look forward to easier, more convenient access to care with virtual doctor visits and behavioral health applications like Sanvello. Throughout the year, they'll receive caring reminders focused on ways to stay healthy, such as getting annual checkups, regular screenings, flu shots and more.

Helping your employees return safely to the workplace

The **ProtectWell** mobile app is here to help you manage a safe return to the workplace—and soon, it will expand capabilities to support employee vaccinations.

As vaccination planning evolves, we'll keep you up to date every step of the way

For more information, talk to your UnitedHealthcare sales representative

This information is summary as of January 2021 and subject to change. The current FDA-authorized COVID-19 vaccines are not recommended for people with certain conditions or of different ages. If you've recently been exposed to COVID-19, please see the CDC guidelines for getting the vaccine. If you've had monoclonal therapy, the CDC states vaccination should not occur for at least 90 days. The CDC does not recommend getting a COVID-19 diagnostic or antibody testing before or after getting the vaccine. Talk to your health care provider if you have questions about getting the vaccine.
