

Your 2015 Prescription Drug List

effective July 1, 2015

DC Government Employees Traditional Three-Tier

Please read: This document contains information about commonly prescribed medications.

For additional information:

Call 1-800-603-3923.

Visit **myuhc.com**[®]

- Locate a participating retail pharmacy by ZIP code.
- Look up possible lower-cost medication alternatives.
- Compare medication pricing and options.

Your Prescription Drug List

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and organizes them into cost levels, also known as tiers. An important part of the PDL is giving you choices so you and your doctor can choose the best course of treatment for you.

Go to myuhc.com® for complete drug information

Since the PDL may change, we encourage you to visit our website, myuhc.com. This website is the best source for up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons.

At UnitedHealthcare, we want to help you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List.

What is a Prescription Drug List (PDL)?

This document is a list of commonly prescribed medications. Drugs are listed by common categories or class. They are placed into cost levels known as tiers. It includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA).

Please note: Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule. It is not a complete list of medications, and not all medications listed may be covered under your plan. Please look at your benefit plan documents provided by your employer or health plan to see what medications are covered under your plan. You may also log on to **myuhc.com** or call 1-800-603-3923 for more information.

How do I use my Prescription Drug List?

When choosing a medication, you and your doctor should consult the PDL. It will help you and your doctor choose the most cost-effective prescription drugs. This guide tells you if a medication is generic or brand, and if special programs apply. Bring this list with you when you see your doctor. It is organized by common medical conditions. Medications are then listed alphabetically.

If your medication is not listed in this document, please visit **myuhc.com** or call 1-800-603-3923.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

Check your benefit plan documents to find out your specific pharmacy plan costs.

\$	Drug Tier	Includes	Helpful Tips
	Tier 1 Lowest Cost	Lower-cost drugs. Some brands and generics are also included.	Use Tier 1 drugs for the lowest out-of-pocket costs.
	Tier 2 Mid-range Cost	Preferred brand medications.	Use Tier 2 drugs, instead of Tier 3 to help reduce your out-of-pocket costs.
	Tier 3 Highest Cost	Mostly higher-cost brand as well as select generic drugs.	Many Tier 3 drugs have lower-cost options in Tier 1 or 2. Ask your doctor if they could work for you.

When does the Prescription Drug List change?

- Medications may move to a lower tier at any time.
- Medications can be up-tiered off cycle when the therapeutically equivalent medication is placed in an equal or lower tier than up-tiered medication.
- Medications may move to a higher tier on January 1.
- Medications may be excluded from coverage on January 1 or July 1.

When a medication changes tiers, you may have to pay a different amount for that medication.

For the most up-to-date list, call 1-800-603-3923.

Programs and Limits

Some medications are noted with letters next to them. The letters refer to our pharmacy benefit programs. Your benefit plan determines how these medications may be covered for you.

N	Notification or Prior Authorization required* – Your doctor is required to provide additional information to us to determine coverage.
SL	Supply Limit – Amount of medication covered per copayment or in a specific time period.

*Depending on your benefit you may have notification or prior authorization requirements for select medications.

To learn more about a pharmacy program or to find out if it applies to you, please visit **myuhc.com** or call 1-800-603-3923.

Why are some medications excluded from coverage?

Medications may be excluded from coverage under your pharmacy benefit when it works the same or similar as another prescription medication or an over-the-counter (OTC) medication. There may be other medication options available.

Should I talk to my doctor about over-the-counter (OTC) medications?

An over-the-counter (OTC) medication may be the right treatment for some conditions. Talk to your doctor about available OTC options.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

Is it a generic or brand name drug?

The drug list shows **brand name** drugs in **bold** type (for example, **Crestor**) and generic drugs in plain type (for example, simvastatin).

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Visit **myuhc.com** to make sure.

What is Mail Service Member Select?

Your plan may include a home delivery program called Mail Service Member Select, which encourages you to use the OptumRx® Mail Service Pharmacy for medication you take regularly. Choosing home delivery can help you better manage the medication you take on a regular basis, and may save you time and money.

You can either confirm enrollment in the OptumRx Mail Service Pharmacy or you can disenroll from mail service and continue to fill your maintenance medications at a retail pharmacy. You can get up to two fills at a retail pharmacy before you have to decide. However, please be aware that you must make a decision about whether or not to enroll in Mail Service Member Select.

If you do nothing and continue to fill your medications at a retail pharmacy, you may pay up to 100% of your drug cost until you make a decision and take action. You must confirm your decision every year. To learn more, you may log on to **myuhc.com** or call 1-800-603-3923 for more information.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit **myuhc.com** or call 1-800-603-3923 for more current information.

Log on to **myuhc.com** for the following pharmacy information and tools:

- Pharmacy benefit and coverage information
- Possible lower-cost medication options
- Medication interactions and side effects
- Participating retail pharmacies by zip code
- Your prescription history

And, if Mail Service is included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set-up e-mail reminders for refills
- Manage your account

For more information

Call 1-800-603-3923.

“My Medications” worksheet

Take this worksheet with you each time you visit a doctor. Each of your doctors should be aware of every drug you take and you should have a list as well.

Name of Medicine and Strength	Drug Tier	I Take This Medicine For	Directions	Doctor
Example: Lisinopril, 20mg	Tier 1	High blood pressure	One tablet daily	Dr. Johnson
